NO. 25

R. SANFORD RILEY, CLASS OF '96, PASSES AWAY AT THE AGE OF 51

End of Varied and Distinguished Engineering Career Was Preceded by Period of Illness

FOUNDED AND DEVELOPED FAMOUS RILEY STOKER CORPORATION
—NOMINATED ALUMNI TRUSTEE LAST FEBRUARY—VERY ACTIVE
WHILE STUDENT AT TECH—EDITED 1896 AFTERMATH

R. S. RILEY, '96

Robert Sanford Riley, '96, prominent alumnus of Worcester Tech, passed away Friday morning at his home, 228 West Street. The death was caused by anemia and heart failure, although he has been ill for some time. He was fifty-one years old at the time of his death.

Mr. Riley, the founder of the well known Riley Stoker Corporation, graduated with high honors in 1896. Since that time he has served as class president. His class plans to hold its thirtieth reunion for this June. He has been prominent in the Alumni Association since his graduation, and was nominated for Alumni Trustee last February.

Mr. Sanford Riley came to Tech from Winnipeg, Manitoba. In his four undergraduate years he was one of the most active men on the Hill. Twice vice-president of his class and twice president, he was also connected with the W. P. I. Athletic Association, the Musical Association, and many other organizations. He was editor of the 1896 Aftermath. He was a member of Sigma Alpha Epsilon Fraternity. Although his claim to fame lies in his reputation as a combustion engineer, he took up locomotive building after graduation. Soon after he took up marine engineering. Joining the Navy

CLARK PUT TO ROUT BY TECH

Robinson Shuts Out South End Rivals 8-0

LEAMY HITS HOME RUN, TRIPLE AND SINGLE—NEUBAUER PERFORMS BRILLIANTLY AFIELD

The Tech nine made it three straight victories by whitewashing Clark last Saturday at Alumni Field, the score being 8-0. Fine pitching by Robinson and good support on the part of his teammates caused the Main-South team to go runless.

McGarrell started the good work for Tech by working Anderson for a walk. Harris flied out to right. McGarrell stole second and scored on a single by Brackett. Guidi struck out, while Leamy brought in Brackett with a triple. Neubauer made the third out with a fly to center.

Again in the third Tech scored, Harris taking his base when hit by a pitched ball. He was out at second on a fielder's choice, when Brackett gained first. Guidi hit a liner to short and Brackett went to third on the shortstop's error. Leamy sent a long fly to center, Brackett scoring, and Neubauer was thrown out at first.

The big rally which netted four runs came in the eighth. Dan Leamy started it with a home run to deep center. His circuit drive gave the other Tech players the fever, with the result that "Honey" Neubauer singled and was advanced to third by a double from "Dick" Converse's bat. Kallander laid down a bunt on a squeeze play, Converse scoring as well as Neubauer, and Kallander took second when

B. U. SURPRISES ON CINDER PATHS

Crimson and Gray Given First Setback of Season

CAPT. CARPENTER ESTABLISHES NEW BROAD JUMP RECORD IN WINNING THAT EVENT

Tech bowed in defeat to B. U. last Saturday afternoon to the tune of 92 to 43 on the cinder paths. The outstanding performer of the day was Captain Carpenter who broke the college record in the broad jump. The old mark was 21 feet, 9 inches. The new mark is 21 feet, 10 inches.

"Dry" Thomson and Gordon Rice were the other outstanding performers. 100-yard dash: 1st, Morrill, B. U.; 2nd, Hatch, B. U.; 3rd, Thompson, Tech; time, 10 2-5 seconds.

220-yard dash: 1st, Hatch, B. U.; 2nd, Morrill, B. U.; 3rd, Thomson, Tech; time, 22 3-5 seconds.

120-yard high hurdles: 1st, Thompson, B. U.; 2nd, Welch, B. U.; 3rd, Thomson, Tech; time, 17 1-5 seconds.

440-yard dash: 1st, Mastaglio, B. U.; Outhank and Campbell, B. U., tied for second; time 51 1-5 seconds.

220-yard low hurdles: 1st, Thompson, Tech; 2nd, Thompson, B. U.; 3rd, Wilcox, Tech; time, 27 2-5 seconds.

880-yard run: 1st, Hearn, B. U.; 2nd, Rice, Tech; 3rd, Blank, B. U.; time, 2 minutes, 3 seconds.

1 mile run: 1st, Rice, Tech; 2nd, Meigs, Tech; 3rd, Hammond, B. U.; time, 4 minutes, 42 seconds.

Two mile run: 1st, White, B. U.; 2nd, Lockhart, B. U.; 3rd, Pearson, Tech; time, 10 minutes, 7 2-5 seconds.

Broad jump: 1st, Carpenter, Tech;

LAWRENCE TRACK TEAM WINS MEET FROM FAST FIELD

Brockton and Springfield Nosed Out

186 Athletes Compete in Interscholastics

A speedy and well balanced track squad from Lawrence High School invaded Alumni Field last Saturday and captured the annual Tech interscholastic track meet from a high class field by a margin of one-half a point. Brockton High and Springfield Technical High gave the Lawrence boys a hard rub and emerged tied for second

(Continued on Page 3, Col. 2)

SENIORS WILL PLANT CLASS TREE IN JUNE

Old Custom to be Revived

Included in the Class Day exercises this year is the revival of another old Tech custom, the planting of a class tree. The Senior class has decided to set out a tree this year with the hope that other classes in years to come will follow suit.

The class of '71 started planting trees on the campus and for about a quarter of a century this was a regular feature of the Class Day exercises. Many of the trees that now adorn our campus are the gifts of the graduating classes from Tech. During this period the odd classes planted trees lining the road to the Institute

(Continued on Page 4, Col. 3)

SOPH HOP WILL ATTRACT MANY

Patrons Are Announced by Committee Chairman

The annual Sophomore Hop to be held in the Alumni gym next Friday evening gives every indication of being a real success. The committee in charge, headed by Chairman Wilkinson, has been working hard and plans have been completed. An extremely satisfactory number of tickets have already been sold and it is evident that a large number plan to attend the affair.

The music, to be furnished by "Joe" Rine's orchestra of Boston, should appeal to the dancers as this team has been a feature at the Hunter's Cabin in Boston all winter and will play this summer at Hunter's Cabin at Hyannis Beach.

The patrons and patronesses will be President and Mrs. Earle, Professor and Mrs. J. W. Howe, Mr. and Mrs. E. R. Closson, Mr. and Mrs. I. E. Bigler.

CALENDAR
TUESDAY, MAY 11—
5:00 P. M.—Fraternity Baseball, P. G. D. vs. L. C. A.
5:00 P. M.—NEWS Meeting.

ALDEN HYDRAULIC LABORATORY FORMALLY OPENED LAST FRIDAY

Dr. Hollis, Members of Faculty and Leading Hydraulic Engineers are Present at Opening

NEW PLANT IS ONE OF FINEST OF ITS KIND IN THE ENTIRE COUNTRY—PROJECT FINANCED BY PROF. GEORGE I. ALDEN

Photo by Staff Photographer

PROMINENT ENGINEERS AND EDUCATORS AT LABORATORY OPENING

The formal opening of the Alden Hydraulic Laboratory located in the village of Chaffins, on Friday of last week, marked another step in the progress of the Institute. The affair was attended by many leading hydraulic engineers of the country including Professor Alden, who was so instrumental in the founding of this station, Dr. Hollis, President Earle, and many members of the faculty. The Laboratory is one of the finest hydraulic laboratories in the world and probably ranks first in natural advantages.

Rather than being formal in nature, the exercises consisted of tours of inspection of the plant. Various tests and experiments were being carried on by members of the Senior Class. Informal discussions were held over the several tests, the visiting engineers inquiring as regards principles, and advantages and disadvantages of the methods of procedure, and occasionally giving helpful pointers.

Professor Allen's process for measuring water current by the salt velocity method came in for a goodly share of interest, inasmuch as the process is a comparatively new one. The differential surge tank which was designed by Mr. R. D. Johnson of New York, was also an object of admiration in the eyes of the visitors. The tour of inspection was interrupted at 1:00 P. M., when an excellent buffet luncheon was served.

(Continued on Page 3, Col. 3)

LARGE CROWD ATTENDS BROOKFIELD CONCERT

Musical Clubs Please Audience

The Musical Clubs placed another success to their credit when the entire club journeyed to Brookfield last Friday night and presented an excellent concert before a well filled hall. There was dancing after the concert until one o'clock with music by the Tech Crescents, Serrano leading. Cutting in was in order and many Tech fellows enjoyed the privilege.

The concert was opened by the Glee Club singing "Long Worcester" and "Rolling Down to Rio." They later entertained with "The Old Road," "Drake's Drum" and "Give a Man a Horse He Can Ride."

"Mab" Steele gave two solo numbers, "Gunga Din" by Kipling, which

(Continued on Page 2, Col. 5)

MANY FEATURES BEING PLANNED FOR JUNE FETE

Swimming Pool to be Dedicated During Week

The Commencement exercises as planned by the committee this year will be the most extensive celebrated on the Hill for a great many years. The dedication of the Homer T. Fuller Pool is an important event of the week. Two other notable features are the dedications of the 1896 Field Building and the Mendenhall tablet. At this time, also, ground will be broken for the new freshman dormitory.

Commencement Week opens this year with the Senior Banquet, Tuesday night, June 15. Arrangements have been made to hold this annual function at Sterling Inn. At this time F. H. Hedin will deliver the class prophecy. The Class Day exercises will be held in front of Boynton Hall on Thursday, June 17. A new feature of this program is the setting out of the class tree.

Friday has been reserved as Alumni Day and is in many respects the big day of the week. The formal opening of the swimming pool with its accompanying dedication to Homer T. Fuller, a former president of Tech, is

ENGINEERING TRAINING

Like many other engineering colleges, Worcester Tech has the reputation of being a difficult place from which to graduate in four years. Most of us came here with the idea that we were under a certain handicap—and never have lost that idea. We are told of the alarmingly small percentage of entrants to an engineering school who graduate. However, a large part of those who leave, do so at the end of the first year when they discover they are on the wrong road. That is certainly proper and the man gains a fine year's preparation. A survey made at one state university recently, showed that the number of graduates from a four-year course in the Liberal Arts department was a smaller percentage of those entering than from the Engineering department. This no doubt is a surprise to many, who firmly believe a technical school is a place where many enter and few graduate.

The majority of us admit and firmly believe that we are in the midst of a long, hard grind; that nearly every minute is taken by classes and studying. Yet, if we timed ourselves as to exactly how much time is spent in studying it would be in nearly all cases much less than supposed. The American Society of Mechanical Engineers found that over sixty per cent of the students entering engineering colleges were either honor students or in the upper third of the class in high school. This means that the engineering students represent the better part of the high school graduates. The average preparation, as given in the high schools, is distinctly for a liberal arts course, and this is often blamed for many of the failures. There are those who believe the course should be six years instead of four so as to get adequate preparation, although the first two years are now mainly preparatory.

Now that we are here, why not get over this attitude of believing we are in a mighty difficult place, just because we have been told so before and since our entrance. It would be a splendid idea to glance around and find out how much hard work is really done here; to find out why certain men fail—it is rarely because of lack of ability. Compare actual work with that of other colleges, and decide for yourself whether or not Tech is such an exceedingly difficult place as it is known. After all, isn't this mostly a notion, inherited from those who have preceded us; a case of sheep follow sheep?

TECHCLARK BASEBALL

(Continued from Page 1, Col. 1)

The Clark infield played poor ball. "Hap" stole third and scored when Brick threw poorly to Tierney. Clark threatened only in the second and eighth, when they got two and three men on, respectively. Robinson tightened up, however, and the team backed him up well.

Neubauer played like a big leaguer at short, handling eight chances without a slip. Brackett starred in the outfield, making four put outs at center.

R. S. RILEY, '96, DIES

(Continued from Page 1, Col. 1)

at the time of the Boxer rebellion he made the memorable trip around the world. At this time he passed the difficult examinations giving him the highest certificate granted by the British Board of Trade. He also held a United States chief engineer's license and gained in his marine work invaluable experience for his great work with automatic stokers.

The name of R. Sanford Riley is well known in Worcester as he was interested in numerous organizations hereabout. He served as president of the Chamber of Commerce and was active in the affairs of the Y. M. C. A. and Y. W. C. A. He has a distinguished war record, holding the post of Chief of the Performance Division of Emergency Fleet Corporation. His profession honored him in offering him the nomination for President of the National body of the American Society of Mechanical Engineers, which he was forced to decline. He was also a member of the Society of Mural Architects and Marine Engineers, and the Engineers Club of Boston and New York. In

1921-22 he served as president of the W. P. I. Alumni Association.

Mr. Riley married in Worcester, April 26, 1904, Katherine Elizabeth Higgins, whose father, Milton P. Higgins, was a faculty member of the Institute. His wife and five children, Robert, Chapin, Katherine, Rosamond and Conrad, survive him. He leaves his father, Robert T. Riley, well known banker of Winnipeg, two brothers, Capt. C. S. Riley and Maj. Harold V. Riley, D. S. O., and a sister.

TWO CLUBS TIED FOR LEAD IN FRAT. SERIES

P. S. K. and A. T. O. Remain Unbeaten

With a record of two games won and no losses, Phi Sig and A. T. O. hold the lead in the interfraternity baseball series.

The brand of ball played so far this year has been fully as good as that displayed in previous springs by the fraternity base-ballers.

The team standings are:

BROOKFIELD CONCERT

(Continued from Page 1, Col. 5)

received much applause, and a humorous number. Frank Weisman gave a piano solo, and "Pete" Wood gave a selected set of readings. The Tech Crescents rendered two selections on the stage, and were warmly greeted on their second appearance. The Banjo Club, led by Tom Stewart, did excellent work. "Milt" Bemis of the class of '23, was present and favored the audience with some humorous banjo solos, that pleased the audience. The entertaining of Serrano with his uke brought him two encores. His Spanish ballad was especially enjoyable.

After the concert the association adjourned to a church where a lunch was served the entertainers.

Buckets of Brawn for Bearings

Wherever there is a Timken Bearing in machinery there is a point of hard service. That's just why each bearing is there.

For very vital reasons Timkens are awarded tough jobs in motor cars, trucks, tractors, machine tools, electric motors and other mechanical devices throughout transportation, agriculture, manufacture, and all other divisions of Industry. Timken Tapered design provides for the inevitable "side-thrust" on bearings, which best engineering dare not ignore. Timken positive roll alignment, exclusive, adds to bearing speed possibilities. And only Timken, in its field, produces its own electric bearing steel.

Finest material for the worst work in machinery is assured by the complete, extremely modern Timken steel plant which is part of the great self-contained Timken Bearing industry.

Such resources and facilities could be reared on nothing but the engineering success of some 150,000,000 Timken Bearings. Facing an engineering career, you will be facing the universal preference for machinery designed around Timken Tapered Roller Bearings. It will be well to know Timkens. The little stiff-bound Timken book, sent gratis upon request, will tell you much.

THE TIMKEN ROLLER BEARING COMPANY
CANTON, OHIO

The world's largest producer of electric furnace steel is Timken. In these giant buckets or "ladles," the liquid Timken steel leaves the furnaces to go through all the processes of manufacture, entirely within the Timken plants.

TIMKEN Tapered Roller **BEARINGS**

COMMENCEMENT

(Continued from Page 1, Col. 4)
scheduled for the afternoon of Alumni Day.
On the same afternoon a tablet will be unveiled in Boynton Hall, opposite the business office, in commemoration of the late Thomas Corwin Mendenhall, the third president of the Institute. This tablet will be dedicated by Dr. Haynes. Other events of the afternoon include the dedication of the new building on the athletic field as the "1896 Field Building." Ground will be broken for the freshman dormitory at this time.
Saturday morning has two more interesting functions in store for everyone. The first is an Alumni baseball game. An Alumni game is always of interest and excites a great deal of enjoyment from all, players and spectators. The Masque will complete the morning program with the presentation of an outdoor show.

INTERSCHOLASTIC TRACK MEET

(Continued from Page 1, Col. 3)
place with a score of 23 1-3 points each.
Almost 200 athletes competed in the meet from the leading high schools in this section. Milde of Springfield showed his heels to a classy field in the 220-yard dash and also captured second place in the century.
A cup donated by the Alumni Association was awarded the captain of the Lawrence aggregation.
The summary:
100-yard dash: 1st, Fortune, North; 2nd, Milde, Springfield Tech; 3rd, Jay, Lawrence; 4th, Doherty, Brockton; time 10 4-5 seconds.
120-yard high hurdles: 1st, Smith, Brookline; 2nd, Davidson, Brockton; 3rd, Pratt, Newton; 4th, Codogan, Lawrence; time, 17 2-5 seconds.
220-yard dash: 1st, Milde, Springfield Tech; 2nd, Chenis, Worcester Classical; 3rd, Gay, Lawrence; 4th, Driscoll, Brockton; time 23 2-5 seconds.
220-yard low hurdles: 1st, Spillane, Brockton; 2nd, O'Brien, Lawrence; 3rd, Record, Brookline; 4th, Gaunt, Worcester North; time, 26 2-5 seconds.
880-yard run: 1st, Hassett, Worcester Commerce; 2nd, Lynch, Lawrence; 3rd, Boches, Boston Latin; 4th, Andrews, Worcester South; time, 2 minutes, 9 2-5 seconds.
Mile run: 1st, Gould, Worcester South; 2nd, Salls, Brockton; 3rd, Davis, Worcester Commerce; 4th, McCrudden, Newton; time, 4 minutes, 51 seconds.
440-yard dash: 1st, Hassett, Worcester Commerce; 2nd, Andrews, Worcester South; 3rd, Pratt, Worcester Commerce; 4th, Doyle, Worcester South; time, 54 2-5 seconds.

HYDRAULIC LABORATORY

(Continued from Page 1, Col. 5)
The site of the station was discovered in 1894 by Professor George I. Alden, then head of the Mechanical Engineering department, and was presented to the Institute by the Honorable Stephen Salisbury, who was at the time President of the Board of Trustees. Mr. Charles H. Morgan, also a member of the Corporation, had the plans drawn, and was instrumental in obtaining the first piece of apparatus installed, the thirty-six inch Venturi meter which had been used at the World's Fair grounds in Chicago in 1893. Mr. Elbert H. Carroll, a member of the class of '90, superintended the construction of the first laboratory.
In 1910 Professor Alden gave money to build the original low-head laboratory which was put upon the site of an old grist mill on the other side of the road from the main laboratory. Two additions have been made to this building from income derived from commercial testing.
In 1924 foundations were built surrounding the original main laboratory and early in 1925 the present building was completed. Mr. Alden, now a

B. U. TRACK MEET

(Continued from Page 1, Col. 2)
2nd, Garrity, B. U.; 3rd, Cormach, B. U.; distance, 21 feet, 10 inches.
High jump: 1st, Garrity and Thompson, B. U., tied; 3rd, Malutaitis, Tech; height, 5 feet, 6 inches.
Pole vault: Germain, Query, Tech, and Leonard, B. U., tied for first; height, 10 feet, 6 inches.
Hammer throw: 1st, Warner, B. U.; 2nd, Cotter, B. U.; 3rd, Huntington, Tech; distance, 92 feet, 8 inches.
Discus throw: 1st, Huntington, Tech; 2nd, Aiken, B. U.; 3rd, Cotter, B. U.; distance, 98 feet, 11 inches.
Shot put: 1st, Maxner, B. U.; 2nd, Tracey, B. U.; 3rd, Huntington, Tech; distance, 36 feet, 3 1-4 inches.
Javeline throw: 1st, Garrity, B. U.; 2nd, Dockham, Tech; 3rd, Morse, B. U.; distance, 144 feet, 11 inches.

member of the Board of Trustees, gave money for this new laboratory. Through his generosity, greatly enlarged facilities have been provided for instruction in hydraulic engineering, for research work and for commercial testing.

Are You Going Into the Bond Business?

There is a cycle of fashion not only for the hats college men wear but for the line of work into which they go.

But your job has to fit your head as well as your hat, for it has to fit your state of mind.

Like your hat also, your job needs to fit your purse.

Therefore, why not choose one that brings not only satisfaction in service but in financial return.

Selling life insurance is one of the few modern businesses that does just this.

It takes:
Intelligence, Zest and Ability

It gives:

Liberty of action, the philosophic satisfaction of selling future security and present serenity to living people, and a response, immediate and tangible, in monetary as well as mental reward.

Complete and confidential information, without any obligation on your part, can be obtained by writing to the Inquiry Bureau, John Hancock Mutual Life Insurance Company, 197 Clarendon Street, Boston, Massachusetts.

John Hancock
LIFE INSURANCE COMPANY
OF BOSTON, MASSACHUSETTS

A STRONG COMPANY, Over Sixty Years in Business. Liberal as to Contract, Safe and Secure in Every Way.

When comes that day of days—and suddenly you know you're a Senior, at the top of the world —have a Camel!

WHEN comes the day that can come but once. And as a Senior you've reached your place at the top of the world—have a Camel!

For Camel shares of its own enchantment with life's memorable events. Camels are of such choice tobaccos that they never tire the taste or leave a cigaretty after-taste. Regardless of the money you pay, there is no mellow, friendlier or better cigarette made than Camel.

So this day as you've safely passed all the hazards to life's sublimest moment—know the taste, the contentment that is the due of the world's experienced smokers.

Have a Camel!

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and Domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price. R. J. Reynolds Tobacco Company Winston-Salem, N. C.

BOYNTON HILL GOLFERS DEFEAT HOLY CROSS

Styffe Stars at Worcester C. C.

Playing in fine form, the Tech golf team defeated Holy Cross 4-2 over the Worcester Country Club course last Wednesday in the first of the two matches scheduled between Tech and the Purple. It was the third straight win out of three starts for Tech, the team having defeated the Leicester Country Club 6-5 on May 1, and on May 4 Boston University 6-0.

Captain Styffe was in rare form against Holy Cross, leading the players for low score with a 73 over the 72-par Country Club course. He defeated O'Brien, the Purple star, by 5 and 4 in the singles, while Hollahan beat Murphy 2 and 1, and Les Heon defeated Fitzgerald 3 and 2. For Holy Cross, Captain McGillicuddy obtained a lone singles victory by winning against Stewart 5 and 3.

In the doubles, Captain Styffe and Hollahan won for Tech from Murphy and O'Brien 5 and 4, while Heon and Stewart lost to McGillicuddy and Fitzgerald in a match which was only decided 1 up at the twentieth hole.

TRINITY TENNIS TEAM TIES TECH

Third Consecutive 3-3 Match
Played at Hartford

The tennis team's invasion of Hartford Saturday resulted in the third straight tie for the Crimson and Grey. Trinity had the strongest team of any of the aggregations that Tech has met to date and every match was hotly contested. Captain Irons and Kranz continued their consistent play and came through in all of their matches.

Kranz' match with A. Katz was a thriller. The long rallies had the spectators on the edge of their seats with excitement. The Trinity captain played beautiful tennis, placing the ball alternately down first one side line and then the other with a mixture of chops, slices and top-spin drives that was bewildering to face. After a heart-breaking and leg-wearying second set, they faced a third set with everything even. The dogged Worcester player summoned all his energy and by terrific serving and brilliant volleying rushed off to a 5-1 lead. Katz staged a last ditch stand and pulled up to 5-3 and came within an ace of taking the tying game but Hal had enough left to stave off another deuce set and took the match.

"Dick" Irons, playing probably the best tennis he has ever shown as a member of the team, waded through his man, Nicol, with ease, in a thirty minute match. The score was 6-0, 6-3. Fogg and Burns both lost in straight sets. Fogg played his man even in the first set but in the second Katz had it all his own way.

Smith and Cotton went down to a straight set defeat 6-3, 6-2.

Scores: singles, Kranz (W) defeated A. Katz (T) 7-5, 9-11, 6-3. Irons (W) defeated Nicol (T) 6-0, 6-3. H. Katz (T) defeated Fogg (W) 6-4, 6-1. Langdon (T) defeated Burns (W) 6-2, 6-2.

Doubles: Irons and Kranz (W) defeated A. Katz and Nicol (T) 6-4, 8-6. H. Katz and Fairchild (T) defeated Cotton and Smith (W) 6-3, 6-2.

SENIORS PLANT TREES

(Continued from Page 1, Col. 3)

Road gate on the campus below the Washburn Shops. The even classes planted their trees on the road to the Salisbury Street gate. Then in '99 the Senior class decided that the planting of ivy would be more beneficial and since that time, with a few exceptions trees have not been planted by the individual classes.

This year in addition to the ivy exercise the class tree will be set out. The location of this tree will be on the road north of the foundry. The ivy orator, M. B. Steele, will have charge of the ceremony.
